

Fibre Reinforced Tactiles

These solid forms of resin polymer TGSI are an ideal tactile solution for areas in the tropics where harsh sun and warm temperatures tend to affect the efficiency of standard TGSIs after prolonged periods of time in external areas.

Avoid lifting/peeling corners and fading colours with this innovative design in Tactiles!

Easy to install with screws and a bead of 11C Sikaflex. There is no waiting period for commencement of traffic, no glue or concrete drying times.

Results in a neat finish that saves installation time and costs.

Easily removed with a tamper-proof bit and easily replaced.

Available in either 300mm x 600mm or 300mm x 300mm; White, Black or Yellow

Top of Dome:	25mm
Bottom of Dome:	35mm
Height of Dome:	5mm
Tile Thickness:	2mm

Compliant to AS/NZS 1428.4 – R12
